Transparent & Semitransparent Nonstaining Colors

Transparent and Luminous.

Semi Successful mixtures. Transparents slightly dulled by stains. Add stainers slowly.

Okay, best to use 1, maximum 2, semi-opaques or 1 opaque with transparents. The more the muddier.

Okay, best to use 1, maximum 2, semi-opaques or 1 opaque with transparents. The more the muddier.

Transparent Staining Colors

Semi Successful mixtures. Transparents slightly dulled by stains. Add stainers slowly.

Excellent, unless applied too thickly.

Very dull, especially cadmimums and the more opaque colors.

Dull and gray

Semiopaque & Opaque Colors

Okay, best to use 1, maximum 2, semi-opaques or 1 opaque with transparents. The more the muddier.

Very dull, especially cadmimums and the more opaque colors.
