Painting Light & Atmosphere

Sign Up Today! Intermediate

Matt will teach the key principles that enable painters to create light and atmosphere in their paintings. These include: values, color mixing, creating depth, watercolor timing and simplification. He will teach lessons on each of these as well as give demonstrations where he incorporates all the skills. Day 1 you will learn how to create light using his approach to values and learn to see the big shapes and find connections. Day 2 you will learn how to paint skies and learn watercolor timing techniques. Each day will allow painting time and 1-on-1 check-ins.
